INTRODUCTION

I am an Information Technology student and developer interested in building web and mobile applications, designing practical software solutions, and creating clear, user-focused digital experiences. My experience includes Flutter application development, full-stack web development, database-driven workflows and cloud document storage.

EXPERIENCE

BAMBHARI | Internship | Dec 2024 - Mar 2025

- Completed an internship at Bambhari. (Role and responsibilities not specified.)

JAYCO SAFETY PRODUCTS PVT. LTD. | App Development Intern (Remote) | Dec 2025 - May 2026

- Developed Jayco – A Samadhan App using Flutter and Dart, a business-support and document-management platform for dispute-related documentation, complaint registration and payment-recovery workflows.
- Worked with Firebase Authentication, Supabase/PostgreSQL, cloud document storage, role-based access, synchronization and offline/connectivity handling.

3FOLKS MEDIA | Software Developer | Jan 2026 - Jul 2026

- Developed a full-stack Creator Invoice Management Portal with separate Creator and Admin/Agency portals.
- Implemented campaign-linked invoice submissions, role-based access, invoice review and approval workflows, PDF generation and digital signatures.
- Integrated Amazon S3 for invoice document storage using AWS SDK for JavaScript v3; worked with Node.js, Express.js, EJS, JavaScript and SQLite/PostgreSQL.

3FOLKS MEDIA | Influencer & Music Marketing | Jan 2026 - Jul 2026

- Supported influencer outreach, creator communication and music-promotion campaign coordination.

EDUCATION

K. J. SOMAIYA INSTITUTE OF TECHNOLOGY | B.Tech. in Information Technology
SHREE BHAGUBHAI MAFATLAL POLYTECHNIC AND COLLEGE OF ENGINEERING
Diploma in Computer Engineering

CERTIFICATIONS

- App Development Internship Certificate — Jayco Safety Products Pvt. Ltd.
- Software Development Internship Certificate — 3Folks Media.
- Internship Management Certification — 3Folks Media.
- Technical Excellence Program — Bambhari (2024).

PROJECTS

Creator Invoice Management Portal | Full-Stack Web Application

- Built creator and agency workflows for invoice submission, document signing, review and approval, with Amazon S3-backed document storage.

Jayco – A Samadhan App | Flutter & Dart

- Business support and document management application focused on dispute documentation, complaint registration and payment recovery.

Aerqon Aviation Website | Website Developer

- Developed the complete website using HTML, CSS and JavaScript.

MediTrail | College Mini Project · Ongoing

- Developing a Personal Health Record Management System with a medical timeline, document management, emergency information and controlled record sharing.

RapidWarn | BMC-Sponsored Project

- Flutter-based disaster reporting and alert application involving live-location reporting, media uploads, maps and notifications, with Supabase and a FastAPI-based ML workflow.

SKILLS

Programming Languages: Dart, JavaScript, Python, Java, C, C#
Web & Mobile: Flutter, HTML, CSS, Node.js, Express.js, EJS
Backend & Databases: FastAPI, REST APIs, Firebase Authentication, Supabase, PostgreSQL, SQLite
Cloud & Tools: AWS S3, Git, GitHub, VS Code, Android Studio
Core Areas: Full-Stack Development, Mobile Application Development, RBAC, Document Management, UI/UX
